

AlgoTradeX

# ALGOTRADEX – SMARTER TRADING. CONSISTENT GROWTH.

Welcome to AlgoTradex, an automated trading and staking platform designed to help users participate in the markets through intelligent, AI-assisted systems.

Our platform offers:

- Automated trading insights and results
  - Opportunities for passive staking rewards
  - Referral-based team growth incentives
- all integrated within a secure and easy-to-use environment.

AlgoTradex aims to simplify the trading experience and give users tools that support steady, sustainable growth.

# ALGOTRADEX—THE FUTURE OF INTELLIGENT FINANCE

AlgoTradeX is more than a trading platform – it represents a technological evolution, combining advanced artificial intelligence, quantitative modeling, and global financial strategies into a unified, seamless ecosystem.

We operate with a bold vision:

To transform the way the world trades, invests, and builds long-term wealth.

AlgoTradeX brings innovation, automation, and strategic efficiency together to empower users with smarter financial opportunities and a modern approach to intelligent wealth creation.

# FOUNDER & OUR STAKING PARTNER

A boutique validator service operating across lesser-known PoS networks. Offers delegated staking with minimal public branding.

A staking service operating across multiple networks. Simplifies delegation for token holders.

**EPOCHGUARD  
VALIDATORS**

A global staking infrastructure provider emphasizing >99.9% uptime based in a mid-sized market. Offering moderate yields on lesser-known networks.

A leading staking infrastructure provider. supports institutional and enterprise clients

**CHAINPOOL  
DELEGATORS**

Focuses on supporting emerging blockchain ecosystems outside major platforms. Provides capped-entry staking pools for network supporters.

**BlockWave  
Networks**

A niche staking operator offering cross-chain delegation services for networks not widely covered.

# OUR FOUNDER

 **Dr. Kenji Arata**  
Founder & Chief  
Algorithm Architect

 **\*Dr. Kenji Arata — Founder & Chief Algorithm Architect\***

A pioneering AI scientist and quantitative systems expert, Dr. Arata leads the development of AlgoTradeX's **"NeuralFlow Engine"** — the heart of our real-time adaptive trading system.

His philosophy:

> **"Emotion disrupts logic; intelligence restores balance."**

Under his leadership, AlgoTradeX's AI has become one of the fastest self-learning trading systems globally.

 **Ethan Cole**  
Co-Founder & Director of  
Global Strategy

 **\*Liang Zhen — Co-Founder & Blockchain Systems Strategist\***

A visionary in decentralized architecture, Liang Zhen built the backbone of AlgoTradeX's blockchain auditing and DeFi-integrated model.

He ensures transparency, stability, and seamless cross-market connectivity.

> **"True decentralization is freedom protected by structure."**

 **Liang Zhen**  
Co-Founder &  
Blockchain Systems  
Strategist

 **\*Ethan Cole — Co-Founder & Director of Global Strategy\***

A global finance strategist and compliance expert, Ethan Cole engineered AlgoTradeX's **"Global Trust Framework"**, aligning fintech innovation with international regulatory standards.

He drives partnerships, institutional alliances, and worldwide expansion.

> **"We're not building a platform — we're building sustainable wealth architecture."**

**THANK YOU**
